RECOVERY HOUSES

*We provide a safe and
comfortable environment
for our residents.*

Our mission is to provide a safe, supportive setting for those in early recovery. Providing a transitional phase until the recovering individual can comfortably return home.

We started Recovery Houses in 1998, and have been providing quality houses for the past **18 years**. We have 9 recovery houses all in close proximity providing a recovering community.

Invision Recovery Houses are transitional housing programs, also known as recovery houses, for men and women recovering from drug and alcohol addiction. Transitional housing differs from halfway houses, in that no professional counseling is provided onsite.

ABOUT THE PROGRAM

Invision Recovery Houses are in a nice location in Lemoyne, PA that is conducive to recovery. The houses are close to a bus route with a new CAT Transfer Station a few blocks away.

There are three local job placement offices in the immediate neighborhood who readily assist the recovery house residents with employment. There are numerous AA/NA meetings in the close proximity to our houses in supporting this sober community.

For those in the need of on going substance abuse counseling New Insights II, a licensed drug and alcohol treatment facility, is a short walk away.
