

KIPU[®]

EMR For Addiction Treatment Centers

Kipu is the Gold Standard EMR for Addiction Treatment. Written exclusively for addiction treatment and widely accepted as the new standard, we are used by over 1,200 treatment centers and more than 30,000 registered users and over 200,000 episodes of care — spanning every level of care from Detox to Residential Treatment, Day/Night Treatment, IOP, OP, Sober Living and After Care, with coverage of every aspect of your business from pre-admission, through treatment and After Care. We're interfaced to over 70 labs for clinical, urine, hair testing and Pharmacogenomics.

You access Kipu in our private secure cloud. No servers, IT investment or other complications. Just log into our HIPAA-compliant environment from any PC, laptop, tablet or smartphone. We handle backups, redundancy, security and administration for you.

**More than 1,200 addiction treatment centers have chosen Kipu...
...shouldn't you?**

MORE

What is KIPU®

What is Kipu?

It's the Electronic Medical Records (EMR) software most widely used by Addiction Treatment Centers. Simply put, it's the Gold Standard EMR. *Easy! Powerful! Fast!*

Whether you offer a Detox, Residential Treatment, PHP, IOP, OP, Sober Living or all of the above, we're experienced with the right solution.

Why should I choose Kipu over other EMRs?

We built a better mouse trap. Kipu EMR became the Gold Standard EMR because of its advanced record keeping, extreme ease of use, and agile implementation. With over 1,200 facilities using Kipu EMR, you know you're using the industry's best and most widely used EMR solution. And don't forget that powerful goes with "easy to use."

How long does it take to implement Kipu?

30 days or less. Guaranteed! There's a check box on the first page of our simple, two-page, no-term agreement for our joint commitment to your 30 Day Implementation. So long as you do not delay, we will have you fully implemented and trained in 30 days or less. If we miss that goal, we'll credit you the FIRST FIVE MONTHS of monthly invoices, up to \$5,000.

Am I stuck to a long term contract?

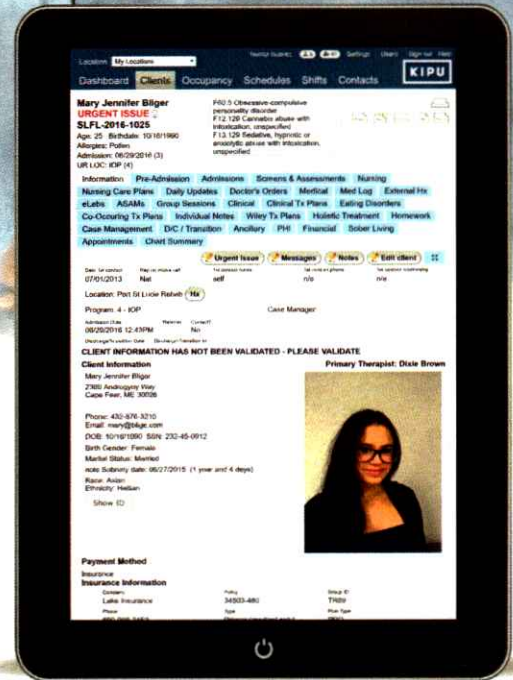

No. Our simple, two-page, plain English agreement has no term to keep you locked in. We know that our superior product and service are the only way to keep you — so we don't have a three-, two-, or even a one-year contract like other EMRs. Our agreement runs month-to-month, so if we ever let you down, fire us and pay no termination or cancellation fees, other than your last month's invoice.

99.99% Uptime Guarantee

Really! Our product and hosting are bulletproof. If we go down, we'll refund you for down time. We're always on and always available... guaranteed.

Money-Back Guarantee!

If, at any time after you sign our agreement and for 30 days after your go-live training, you're not happy for any reason — no questions asked — simply contact us and we'll refund all but the first \$5,000 of your implementation — and any monthly or patient fees will be credited as well.

Simply The Best EMR

Kipu was written in the addiction treatment world and exclusively serves addiction treatment and behavioral health. We start with a full featured pre-admission mini-CRM and run every aspect of the episode of care with medication management, group and individual sessions, Golden Thread and over 70 laboratory interfaces for urine, clinical, hair testing and pharmacogenomics. It's no wonder we're the Gold Standard EMR for addiction treatment.

Ask for a FREE Business Consultation

Ultimately, what you want to know is how can Kipu help take care of your business so that you can take care of your clients. Right? Well, we're here to help you.
