

Who is YCF?

Your Choice Foundation is a 501c3 non-profit organization that offers services, programs and workshops for schools, churches and community organizations. The goal of Your Choice Foundation is to share with others our message on choices, enabling people to make their next choice their best choice. The foundation offers a message of hope, love, and faith for those seeking help and for those who have loved ones struggling with addictions.

We deliver a powerful message to youth in our schools that can help them make the right choice about drug use, drinking alcohol, bullying, suicide and more.

Unfortunately, some of the schools that need our message the most simply don't have the funds to bring the program to their school.

Donations drive what we do.

Your donations help us continue to deliver our message to youth across the country, even when their school is lacking funds.

Your donations also enable us to continue developing programs to help those who are caught in the grip of addiction or need guidance and life coaching to help get their lives back on the right path.

Your one-time gift or monthly recurring gift will go to work immediately to help save lives through education and prevention and helping others make wise choices.
